

Example of a good submission

Date meeting planned DD/MM/YYYY	Details
International  Evening program 1.	Organise a series of two evening programmes for another section on an international theme agreed with your mentor.  In the Cub program it was a Diwali night scheduled and I arrange that I would plan the night.
Planning notes: Thoughts and Ideas	I looked on pinterest for some ideas and I found a Diwali story and a wordsearch as well as several craft ideas. Equipment I sourced was airdrying clay, printed the wordsearch, black card and straws. We already have paper, paints and pens. Make sure there are enough adult leaders and helpers for the four bases
Meeting Plan	Grandhowl then four bases <ol style="list-style-type: none"> <li>1. Making diya lamps with air drying clay</li> <li>2. Making henna hands – this was drawing around their hands and then decoration and colouring in the picture.</li> <li>3. The wordsearch of Diwali I'd found.</li> <li>4. Firework pictures using paints and straws.</li> </ol> Followed by the Diwali story and reflection
Review	After grandhowl I explained to the Cubs that we were going to be looking at Diwali and I asked them if any knew about it. A few did as they had learnt about it at school. I explained this is the most important celebration for Hindu's and we would be doing some activities to also celebrate it. The pack was then split into their four sixes for the bases I'd organised The cubs seemed to like the different activities, the air drying clay was a bit messy. Once all the cubs had completed the activities we all sat together with the lamps they'd made in front of them. The leader found some tea lights, put them in and lit them. When the cubs were quiet I told the Cubs the Diwali story, the cubs who said earlier said they knew it and we talked about the different characters. We talked about why this story is important to people who are Hindus and why they celebrate with fireworks and lights.  Photos attached.
